Full Stack Web Bootcamp

Online Academy
2018

LANGUAGES

- SpanishNative
- EnglishProfessional

CERTIFICATIONS

- AWS Certified Developer – Associate
- Professional Scrum Master I (PSM I)
- REST API Design

Full Stack Developer · Product · Web

Full Stack Developer with 10+ years building web products end to end. Comfortable across both frontend and backend, focused on writing maintainable, performant, well-tested code. Product-minded: understand the problem, iterate fast, and ship value. (This is a sample CV: replace its content by editing the DATA object in CV-interactivo.html.)

EXPERIENCE

Senior Full Stack Developer

2021 – Present

Example Company · SaaS Platform

- Led end-to-end development of new features, from API design to the user interface, on a platform used by thousands of users.
- Improved application performance by reducing load times and optimizing database queries and the frontend bundle.
- Mentored junior developers and introduced code review and automated testing practices that raised code quality.

Full Stack Developer

2018 – 2021 · 3 yrs

Example Startup

- Built and maintained Node.js backend services and a React interface for the startup's core product.
- Designed and implemented REST APIs and integrations with third-party services (payments, notifications, authentication).
- Worked closely with product and design across short discovery and delivery cycles.

Frontend Developer

2017 – 2018 · 1 yr

Example Web Agency

- Developed responsive, accessible websites for clients across various industries, with attention to performance and SEO.
- Turned designs into pixel-perfect interfaces with modern HTML, CSS, and JavaScript.
- Automated build and deployment tasks to speed up project delivery.
